Silver Spur Ranch

The Horse Drive at Silver Spur Ranch offers an unparalleled adventure in the rugged Rocky Mountains of Idaho. Far from a traditional dude ranch, this 6-day, 5-night experience (Monday through Saturday) involves herding over 40 young horses through diverse and challenging terrain. These horses, part of the ranch's training program, learn essential skills such as navigating creeks, steep trails, and obstacles—all before being ridden.

Designed for adventure seekers, the Horse Drive is fast-paced, skill-testing, and deeply immersive. Guests split their time between the ranch and trail camps, staying three nights in rustic, solar-powered cabins with simple comforts like charging power, an outdoor shower with endless hot water, as well as an indoor shower house with full facilities. The ranch is entirely off-grid, offering a peaceful retreat from modern distractions.

With the guidance of experienced cowboys and cowgirls, participants hone their roping and riding skills and embrace the Western way of life. This isn't just a horseback adventure—it's a transformative experience that connects riders to nature, horses, and the true spirit of the West.
